OUR OWN BRANDED ITALIAN COFFEE

RichLuigi® 100% Italian coffee has a smooth creamy balance of Arabica and Robusta beans with traditional Roman character. Manufactured in Lazio, our coffee is both wet and dry processed and uses multiple varieties of coffee beans. High ground, climate differences and alternate methods of cultivation produce specific flavour characteristics unique to each variety, which we blend to produce our delicious coffee.

RichLuigi also acts as agents for numerous Italian coffee producers (able to scale) and can provide specialised, artisan and unique coffee lines upon request. Think premium or original solubles – coffee and ginseng, chilled yogurt or lemon sorbet anyone!?
